The men association are sufficient and the statements is significant. The men association are the men who know him best. Their judgment is not say to be an erroneous one.

The Constitution does not undertake to interfere in the Alabama sensorial content or to pass judgment upon the relative fitness of the conditions. The fore leader of the house no question has been raised in any quarter. It is due to his generalship, to his faculty for discipline and his genius for compromise that the democrates of the house have been able to keep party piedges as to the tariff and other issues. He has given that the termination of the size has a successfully accomplished, though it brought this to the verge of breakdown; justice to the man who has laid the democratic party may be the exchanges of personal politics and clashing ambitions. Underwood's contribution to the constructive legislation of his country cannot be minimized.

DIPLOMACY THAT COUNTS.
Nothing testifies more strongly to the statesmanship of Woodrow Wilson than his handling of the Mexican problem. Like every other issue that is now vexing the country, it was inherited from the Taff and to assume that is more accountry in the Mexican problem. Like every other issue that is now vexing the country, it was inherited from the Taff and to assume that is morance of detail might have led the president into some mistake. That he has steered clear of all serious error is a tribute to his keeness of perception and the long tendence of his nature.

The unsophisticated observer may have now and then bose tempted to believe that Mexico is one of negation. It so, the negation has been of a constructive character, as events have conclusively demonstrated. The president has evidently and from the very first worked to the end of so establishing the sincerity of glis government as to silicate all criticism when finally it inguit because all criticism when finally it inguits the standard of the support of Europe and apparently at hopeless odds with his own people. In Selecting a Depository

In selecting a Depository

for your funds absolute safety is your
first consideration. A wealthy bank with
an inexperienced Management and Directorate may be all right, or a moderately
rich bank with a strong Management and
Directorate may be able to afford you
every courtesy you desire. But decidedly
the safe choice is to deposit in a bank
with an experienced Management and an
able Directorate, and where its reputation for meeting every need of the most
particular deserving depositors extends
over a period of many years.
